 8. **Auditor / Inspector (Read-Only)**
-

1. COMMUNITY MEMBER / RESIDENT USER STORIES

1.1 Raise a Complaint

As a Community Member

I want to log a complaint easily

So that my issue is officially recorded and resolved.

Acceptance Criteria

- Can select category & sub-category
 - Can attach photos, videos, voice notes
 - Can mark urgency
 - Can auto-detect location or select manually
 - Complaint ID generated instantly
-

1.2 Track Complaint Status

As a Community Member

I want to track the real-time status of my complaint
So that I know what is happening without calling the office.

Acceptance Criteria

- Status timeline visible
 - Assigned staff/vendor visible
 - SLA countdown visible
 - Escalation status shown
-

1.3 Communicate on Complaint

As a Community Member

I want to add comments or additional evidence
So that the resolution is accurate.

1.4 Escalate Automatically

As a Community Member

I want my complaint escalated automatically if delayed
So that I don't have to chase authorities.

1.5 Reopen or Confirm Closure

As a Community Member

I want to confirm satisfaction or reopen the complaint
So unresolved issues are not closed unfairly.

1.6 Rate Resolution

As a Community Member

I want to rate the service
So good or bad performance is recorded.

2. STAFF / SERVICE PERSONNEL USER STORIES

2.1 View Assigned Complaints

As a Staff Member

I want to see only my assigned complaints
So I can focus on my responsibilities.

2.2 Update Status

As a Staff Member

I want to update progress
So stakeholders stay informed.

2.3 Add Resolution Evidence

As a Staff Member

I want to upload before/after images and notes
So work done is verifiable.

2.4 Request Support or Extension

As a Staff Member

I want to request additional time or resources
So SLA exceptions are documented.

3. VENDOR / CONTRACTOR USER STORIES

3.1 Receive Assigned Tickets

As a Vendor

I want to receive complaints assigned to my contract
So I can act within scope.

3.2 Upload Completion Proof

As a Vendor

I want to upload invoices, images, and work notes
So payments and audits are smooth.

3.3 View Performance Feedback

As a Vendor

I want to see feedback related to my work
So I can improve service quality.

4. DEPARTMENT SUPERVISOR USER STORIES

4.1 Monitor Department Complaints

As a Supervisor

I want to monitor all complaints under my department
So SLA compliance is maintained.

4.2 Reassign or Escalate

As a Supervisor

I want to reassign complaints or escalate them
So bottlenecks are resolved quickly.

4.3 Review Low Ratings

As a Supervisor

I want to review low-rated complaints
So corrective actions can be taken.

5. COMMUNITY ADMIN / MANAGEMENT OFFICE USER STORIES

5.1 Configure Complaint Categories

As a Community Admin

I want to define complaint categories and SLAs
So the system matches real operations.

5.2 Auto-Assignment Rules

As a Community Admin

I want to configure auto-assignment rules
So complaints reach the right team instantly.

5.3 SLA & Escalation Control

As a Community Admin

I want to define escalation matrices
So accountability is enforced without manual follow-ups.

5.4 Override & Emergency Handling

As a Community Admin

I want to override assignments during emergencies
So critical issues are resolved immediately.

5.5 Dashboard & Reporting

As a Community Admin

I want real-time dashboards and reports
So I can manage performance and planning.

6. GOVERNING BODY / COMMITTEE MEMBER USER STORIES

6.1 Oversight Dashboard

As a Committee Member

I want a summarized complaint dashboard
So governance decisions are data-driven.

6.2 Escalation Visibility

As a Committee Member

I want to see escalated and repeated complaints
So systemic issues are addressed.

6.3 Policy Review Inputs

As a Committee Member

I want complaint trends
So policies and budgets can be improved.

7. SUPER ADMIN USER STORIES

7.1 Multi-Community Oversight

As a Super Admin

I want to view complaint performance across communities
So platform quality is maintained.

7.2 Role & Permission Control

As a Super Admin

I want granular permission control
So access is secure and compliant.

7.3 System Audit & Logs

As a Super Admin

I want immutable logs
So the system is audit-ready.

8. AUDITOR / INSPECTOR USER STORIES

8.1 Read-Only Access

As an Auditor

I want read-only access to complaint records
So inspections are transparent.

8.2 Export Reports

As an Auditor

I want exportable reports
So compliance verification is easy.

CROSS-ROLE ADVANCED USER STORIES (AI & AUTOMATION)

A1. Duplicate Detection

As the System

I want to detect duplicate complaints
So workload is reduced.

A2. Predictive Alerts

As Management

I want predictive alerts on recurring issues
So preventive action can be taken.

A3. Chatbot Intake

As a User

I want to log complaints via chatbot
So access is frictionless.
