7. Engagement & Analytics Dashboard

```
-----
| Announcement Analytics                                     |
|-----|
| Seen: ██████████ 82%                                     |
| Acknowledged: ████████ 60%                               |
| Comments: 14                                              |
| Downloads: 32                                             |
|-----|
| ⚠ View Seen List | Export Report (PDF/Excel)             |
|-----|
```

8. Feedback & Acknowledgement

```
-----
| Acknowledge Receipt                                       |
|-----|
| ☐ I have read and understood                       |
| Optional Comment: [_____]                               |
| [Submit]                                                  |
|-----|
```

9. Comment & Discussion (Controlled)

```
-----
| 💬 Comments (Moderated)                                   |
|-----|
| Ahmed: Please confirm timing                             |
| Admin: Confirmed 8-10 PM                                 |
|-----|
```

Admin Controls: - Disable comments per notice - Moderate / delete comments

10. Attachments & Media Viewer

 maintenance_notice.pdf
 image.jpg (Preview)
 video.mp4 (Stream / Download)

Storage: - Free quota + Paid add-on - Expiry-linked media cleanup

11. AI Assistance (Optional Advanced)

[# AI Assist]
• Rewrite professionally
• Translate (Urdu / Arabic / English)
• Summarize for SMS / WhatsApp
• Predict best publish time

12. Notification Controls

Notify via:
☒ App Notification
☒ Email
☐ SMS
☐ WhatsApp

| Approved by: Chairman |

Edited on: 12-Jan-2026

Outcome

These wireframes are **developer-ready, UX-clear**, and scalable for: - Residential Communities - Mosques / Madaris - Chambers / Associations - Smart Cities

Next steps (optional): - Convert to **Figma** - Prepare **API contracts** - Create **database schema** - Generate **user stories per role**
