1. CORE ANNOUNCEMENT MANAGEMENT

Story 1.1 – Create Announcement

As a Community Admin

I want to create different types of announcements

So that I can communicate effectively with the community.

Acceptance Criteria

- Can select announcement type:
 - General
 - Targeted
 - Restricted
 - Emergency
 - Must select category
 - Draft saved automatically
 - Preview before publish
-

Story 1.2 – Emergency Announcement

As a Community Admin

I want to publish emergency announcements that override normal rules

So that urgent information reaches everyone immediately.

Acceptance Criteria

- Auto push + SMS
- Overrides quiet hours
- Sticky + fullscreen option
- Mandatory acknowledgment enabled

2. TARGETING & AUDIENCE SELECTION

Story 2.1 – Targeted Audience

As an Admin / Committee Member

I want to target announcements to specific groups
So that only relevant people receive it.

Targeting Options

- Buildings / Blocks / Towers
 - Floors / Units
 - Owners / Tenants
 - Staff roles
 - Custom tags (e.g. Volunteers)
-

Story 2.2 – Individual Targeting

As an Admin

I want to send an announcement to specific individuals
So that confidential or personalized messages are possible.

3. RICH TEXT CONTENT EDITOR

Story 3.1 – Rich Content Creation

As a Content Publisher

I want rich text tools
So that announcements are clear and professional.

Editor Capabilities

- Headings, lists, tables
 - Images inline
 - Emojis optional
 - Hyperlinks
 - CTA buttons
-

Story 3.2 – Call-to-Action

As a Resident

I want to click action buttons in announcements
So that I can immediately act (Pay, Register, Contact).

4. ATTACHMENTS & MEDIA

Story 4.1 – Upload Attachments

As an Admin

I want to attach files to announcements
So that supporting documents are available.

Acceptance

- PDF, Image, Doc, Excel, Video
 - Size limit enforced
 - Preview before upload
-

Story 4.2 – Paid Storage

As a Community Admin

I want additional paid storage
So that media history is preserved.

5. PUBLISHING CONTROLS

Story 5.1 – Schedule Announcement

As an Admin

I want to schedule announcements
So that they publish automatically at the right time.

Story 5.2 – Expiry & Archive

As an Admin

I want announcements to expire and archive automatically
So that outdated information doesn't confuse users.

6. VISIBILITY & PRIORITY

Story 6.1 – Priority Setting

As an Admin

I want to set priority levels
So users know what's urgent.

Levels

- Normal
 - High
 - Urgent
 - Emergency
-

Story 6.2 – Pin & Highlight

As a Resident

I want important announcements pinned
So I don't miss them.

7. ENGAGEMENT & FEEDBACK

Story 7.1 – View Tracking

As an Admin

I want to see who has read announcements
So I can measure reach and compliance.

Metrics

- Total recipients
 - Seen / unseen
 - Last read time
-

Story 7.2 – User Interaction

As a Resident

I want to like, comment, or ask questions
So I can engage with announcements.

Story 7.3 – Mandatory Acknowledgement

As an Admin

I want mandatory read confirmation
So compliance is ensured.

8. NOTIFICATIONS & ALERTS

Story 8.1 – Multi-Channel Alerts

As a Resident

I want notifications via app, email, or SMS
So I don't miss important updates.

Story 8.2 – Smart Reminders

As an Admin

I want reminders sent to unread users
So important notices are acknowledged.

9. SEARCH, FILTER & HISTORY

Story 9.1 – Search Announcements

As a Resident

I want to search past announcements
So I can find information anytime.

Story 9.2 – Admin Filters

As an Admin

I want advanced filters
So I can audit communications.

10. MODERATION & GOVERNANCE

Story 10.1 – Approval Workflow

As a Committee Member

I want announcements reviewed before publishing
So governance is maintained.

Story 10.2 – Audit Trail

As a Super Admin

I want full activity logs
So accountability is ensured.

11. DIGITAL DISPLAY INTEGRATION

Story 11.1 – Physical Board Sync

As a Community Admin

I want announcements displayed on digital screens
So offline residents are informed.

Story 11.2 – Emergency Override

As Security Staff

I want emergency notices to auto-display
So safety communication is instant.

12. ROLE-BASED ACCESS CONTROL (RBAC)

Story 12.1 – Permission Management

As a Super Admin

I want granular permissions
So users only access what they should.

Story 12.2 – Staff Limited Access

As Staff

I want restricted visibility
So I only see relevant announcements.

13. MULTI-LANGUAGE SUPPORT

Story 13.1 – Language Preference

As a Resident

I want announcements in my preferred language
So communication is inclusive.

Story 13.2 – Admin Multi-Language Posting

As an Admin

I want to publish multilingual announcements
So everyone understands.

14. SECURITY & PRIVACY

Story 14.1 – Secure Attachments

As an Admin

I want access-controlled downloads
So sensitive data is protected.

Story 14.2 – Data Masking

As a Compliance Officer

I want personal data masked
So legal standards are met.

15. ADVANCED & AI FEATURES

Story 15.1 – AI Content Suggestions

As an Admin

I want AI to suggest better wording
So announcements are clearer and shorter.

Story 15.2 – AI Translation

As a Resident

I want instant translation
So I can understand any notice.

Story 15.3 – AI Engagement Insights

As Management

I want AI analytics
So I know what content works best.
