

USER STORIES BOARD

MEMBER & MEMBERSHIP MANAGEMENT MODULE

A. MASTER MEMBER (END USER) STORIES

A1. Account Creation & Identity

US-A1.1

As a **new user**,

I want to create **one master profile**,

So that I can use the same identity across multiple communities.

Acceptance Criteria

- Email/mobile uniqueness enforced
 - No duplicate profiles allowed
 - Profile reusable across communities
-

US-A1.2

As a **user**,

I want to update my **personal profile once**,

So that changes reflect across all communities.

A2. Multi-Community Membership

US-A2.1

As a **member**,

I want to **join multiple communities**,

So that I can participate in different organizations using one app.

US-A2.2

As a **member**,

I want to see **all my communities in one dashboard**,
So that I can easily switch context.

US-A2.3

As a **member**,
I want to switch between communities seamlessly,
So that the app shows correct menus, permissions, and data.

A3. Role Awareness

US-A3.1

As a **member**,
I want to clearly see my **role in each community**,
So that I understand my responsibilities and permissions.

US-A3.2

As a **member**,
I want my access to change automatically when I switch communities,
So that I don't accidentally perform unauthorized actions.

B. COMMUNITY CREATOR / SUPER ADMIN STORIES

B1. Community Creation

US-B1.1

As a **user**,
I want to create my own community,
So that I can manage a group based on mutual interest.

US-B1.2

As a **community creator**,
I want to define the **community type**,
So that default roles and features are auto-configured.

B2. Membership Configuration

US-B2.1

As a **community admin**,
I want to define **membership types**,
So that different kinds of members can join appropriately.

US-B2.2

As a **community admin**,
I want to define **approval workflows**,
So that I control who becomes a member.

B3. Role & Permission Control

US-B3.1

As a **community admin**,
I want to assign **roles to members**,
So that responsibilities are clearly distributed.

US-B3.2

As a **community admin**,
I want to customize **permissions per role**,
So that access is controlled precisely.

C. MEMBERSHIP ADMIN / MANAGER STORIES

C1. Member Onboarding

US-C1.1

As a **membership manager**,
I want to approve or reject membership requests,
So that only eligible members are added.

US-C1.2

As a **membership manager**,
I want to invite members via email or phone,
So that onboarding is fast and controlled.

C2. Member Lifecycle

US-C2.1

As a **membership manager**,
I want to activate, suspend, or terminate memberships,
So that I can manage discipline and compliance.

US-C2.2

As a **membership manager**,
I want to see a member's **membership history**,
So that decisions are auditable.

D. MULTI-ROLE MEMBER STORIES

D1. Same Person, Different Roles

US-D1.1

As a **member**,
I want to hold **different roles in different communities**,
So that I can serve appropriately in each.

US-D1.2

As a **member**,
I want my actions to be restricted by role,
So that I don't misuse authority.

E. FAMILY / SUB-MEMBER STORIES (OPTIONAL BUT IMPORTANT)

US-E1.1

As a **primary member**,
I want to add family members under my profile,
So that they can access limited features.

US-E1.2

As a **community admin**,
I want to control what family members can do,
So that access remains secure.

F. SYSTEM & SECURITY STORIES

F1. Data Isolation

US-F1.1

As a **community admin**,
I want to see only my community's members,
So that privacy is maintained.

US-F1.2

As a **system**,
I want to isolate data between communities,
So that no information leaks.

F2. Audit & Compliance

US-F2.1

As a **system admin**,
I want to track all membership actions,
So that audits and investigations are possible.

G. NOTIFICATION & UX STORIES

US-G1.1

As a **member**,
I want to receive notifications per community,
So that I'm not confused by mixed alerts.

US-G1.2

As a **member**,
I want to control notification preferences per community,
So that my experience stays clean.

H. EDGE CASE & ADVANCED STORIES

US-H1.1

As a **member**,
I want to leave a community without deleting my account,
So that my master profile remains intact.

US-H1.2

As a **system**,
I want to prevent duplicate accounts,
So that identity integrity is maintained.

I. PRODUCT OWNER VIEW (WHY THIS BOARD IS SOLID)

- ✓ Covers **all roles**
 - ✓ Supports **any community type**
 - ✓ Prevents UX confusion
 - ✓ Scales to millions of users
 - ✓ Ready for Agile sprints
-
